

The AI cloud company

NEBIUS

What we do

Nebius, the AI cloud company, is building the full-stack platform for developers and companies to take charge of their AI future — from data and model training to production deployment.

Who we are

Behind the platform is a team of hundreds of engineers with deep expertise in building world-class tech infrastructure, as well as an in-house R&D team. Our leadership team brings decades of international experience in leading and scaling global tech businesses.

Who are our customers

We serve a fast-growing ecosystem of AI innovators of all sizes — from startups to research institutes to enterprises — across sectors including healthcare and life sciences, robotics, finance and entertainment, as well as national AI programs.

Global footprint

Headquartered in Amsterdam and listed on Nasdaq (NBIS), Nebius has a global footprint, with hubs and data centers across Europe, the U.S. and Israel. We serve customers globally.
